

ADMISSION CRITERIA

Blue Ridge Vista is a behavioral health hospital, serving the adult and senior populations in a contemporary healing environment. We specialize in providing care to those struggling with emotional challenges by employing progressive clinical and therapeutic techniques and focusing on the patient experience.

The determination for admission is based upon an initial assessment by a qualified treatment professional. This assessment will include:

- An initial evaluation by a Blue Ridge Vista Physician who will review medical, emotional, behavioral, social, and nutritional needs.
- A thorough review and evaluation of the patient's psychiatric history, including previous treatment and physical and health screenings.

Admission is approved for patients who have a diagnosed psychiatric disorder and who are in need immediate intervention to avoid 1) life threatening health risks due to their mental disorder, and/or 2) imminent and severe damage to their social, occupational, education, financial or legal functioning due to symptoms of their mental disorder.

If you or someone you care about is an adult managing the unique and often complicated effects of behavioral health and co-occurring medical conditions, call us at 513.841.3001 to determine how we can help.

Our admission staff is available 24/7. Our team of professionals is led by a psychiatrist. Together we work to obtain essential information to determine if you or your loved one meets the medical criteria necessary for our inpatient care.
